OREGON IS REPUBLICAN

Returns Indicate That the Plurality Is From 5000 to 8000.

BOTH CONGRESSMEN ELECTED

Fusionists Have Made Gains In Legislature But Republicans Claim Both the Houses.

Portland, Ore., June 4, 10:45 p. m.—Meagre returns from today's election indicate that the Republicans have carried the state by from 5,000 to 8,000 plurality.

It is estimated that C. E. Wolverton (Rep.) for justice of the supreme court will have a plurality of 8,000 and J. W. Bailey (Rep.) for food and dairy commissioner is elected by 6,000.

In the second congressional district the plurality for Moody (Rep.) is estimated at from 5,000 to 7,000.

From the first congressional district, which has always been close, no returns have been received except from one county and Tongue (Rep.) was running ahead of his ticket.

According to the returns the fusionists have gained in the legislature but returns are too meagre to permit of an estimate at this hour, though the republicans claim they will control both houses.

GENERAL OTIS' OPINION ON PHILIPPINE AFFAIRS

San Francisco, June 4.—After five days in quarantine at Angel island, Major General E. S. Otis, who arrived last Wednesday from Manila, was allowed to land today. Several cases of smallpox on board the transport Meade were the cause of the quarantine and General Otis and all on board had to submit to vaccination.

General Otis was brought over from Angel island on a special steamer furnished by General Shafter, who went to meet the returning general, accompanied by Surgeon General Major Arthur and Captain Wilson. The party was driven to the Occidental hotel, where General Otis spent the afternoon receiving callers and preparing for his departure east.

It had been decided to receive General Otis here with full military honors, but for some reason this ceremony was omitted.

When seen by a representative of the Associated Press, General Otis, in response to a request that he make a statement of the situation in the Philippines said that while it would give him great pleasure to comply with the request, he was constrained to decline for the reason that such action, in his judgement, would be inconsistent with his duty as an officer of the army.

Asked what would be the effect on the war if the report of Aguinaldo's death were true, General Otis said that the war was practically ended, that Aguinaldo's followers were deserting him fast and those who now remain with him are generally of the lower class. Most of his officers have left him, though some still come in touch with him. Some of those who have left are now engaged in business in Manila and others are in hiding in the mountains. Many of his closest followers are very friendly toward the United States and as soon as the natives in general gain confidence in those friendly to officers, and in the Americans there would be little difficulty in bringing them to terms.

Asked as to the commercial value of the islands, the general said they were vastly rich, and especially in hemp, sugar and tobacco and that as soon as the situation became more quiet business of all kinds would increase tremendously, as it is now doing.

General Otis would not state whether or not he favored the retention of the islands by this country. In response to such a query he merely said: "We've got them now. What are we to do about it?"

Regarding the number of troops and the condition of the soldiers, General Otis said:

"There are 65,000 effective troops scattered among the islands now engaged in the protection of the people from guerilla warfare which is rampant in some portions. The general health of the troops is exceedingly good, the percentage of sick for the month of April being but 10 per cent.

"The Americans can stand the climate better than the Filipinos, especially during the rainy season, did their health impress me. The men become acclimated and though it may become necessary to send out relief troops at times, it will hardly be necessary to send reinforcements."

General Otis said that his own health was excellent, that the ocean trip had done him a world of good. General Otis will leave for Washington tonight and will report to the president at once.

He would not state when his report would be ready but he would first make a verbal report to the authorities in Washington and later hand in an extended written report.

REGULARS TO RELIEVE PHILIPPINE VOLUNTEERS

Washington, June 4.—In order to prevent any of the war department expecting the military forces in the Philippines, Adjutant General Corbin made a statement of the facts in the case.

He said there had been no change of plans since the departure of General Otis from Manila, that none was contemplated. Under the law the entire volunteer army now serving in the Philippines will go out of service June 30, 1901, and the policy of the war department is now to get 30,000 men of that army home from the Philippines before the date named, at the same time relieving them with other troops of the regular establishment so as to make possible without loss of military vantage in the Philippines and, without material disturbance of the present military organization.

General Corbin says it is proposed to maintain an army of 40,000 regulars in the Philippines so long as required and to do this it will be necessary to draw troops now in China. The army in the Philippines at present numbers about 60,000 men, equally divided between regulars and volunteers.

All the volunteers are to be brought home and mustered out at the place of enlistment, June 30, 1901, next year, and in order to accomplish this with certainty and with the least embarrassment the homeward movement will begin in the order of their departure from the United States. To do this will tax the transportation service to its utmost, and a good program of time will be allowed to guard against unforeseen and unavoidable delays.

The plan is to have all the men at their homes and their accounts with the government closed on the last day of their term of enlistment. This is a task of enormous proportions and will tax the establishment to the utmost from now until it is fully accomplished.

In order that there may be no immediate reduction of force under General MacArthur it has been arranged to send as rapidly as possible to take the place of the departing volunteers. Orders have been issued for the assembling of the Sixth cavalry at San Francisco for transport to Manila. One detachment will leave about the 15th instant, another about the first of July.

It is believed that many of the troops in Cuba can be relieved from duty there on the 15th instant. In case the Filipino insurrection is not ended and troops are brought home and assigned to home stations, in order that the home garrisons may be utilized in recruiting the army in the Philippines.

General Corbin says it is incorrect to state that the time of the volunteer army is to be extended or that reinforcements are to be sent to the Philippines, the fact simply being that the volunteers are to be brought home for disbandment and enough regulars sent there to take their places to aid General MacArthur 40,000 men to assist in maintaining the supremacy of the United States and to carry out the plans of civil government determined upon by the Taft commission.

MACARTHUR'S REPORT ON THE PHILIPINO CASUALTIES

Washington, June 4.—Secretary Root today made answer to the senate resolution inquiring as to the number of Filipinos killed and wounded, and the number of prisoners taken since the insurrection began.

Having no detailed information on the subject the secretary cabled the inquiry to General MacArthur, commanding at Manila, and received the following response which was submitted to congress:

Manila, June 4.—Adjutant General, Washington: "With reference to your telegram of 22nd ultimo:

"Filipinos killed, 16,750; wounded, 7,214; captured and surrendered, 16,424. Number of prisoners in our possession, about 2,000. No systematic record Filipinos casualties at these headquarters. Foregoing compiled from large number of reports made immediately after engagements, is as close an approximation as is now possible owing to the wide distribution of troops. More accurate report will take months to prepare. Number reported killed is probably in excess of accurate figures, number reported wounded is probably much less, as the Filipinos managed to remove most of their wounded from the field and comparatively few fell into our hands. Officers of high rank and dangerous or suspicious men have been retained as prisoners; most other men discharged on field as soon as disarmed. Propose to release all but very few prisoners at an early date.

"MacArthur."

PUBLIC LANDS WILL BE OPEN TO SETTLEMENT

Washington, June 4.—A conference agreement was reached today on a bill which will open to settlement about 2,400,000 acres of public land.

Senator Shoup of Idaho, originally proposed the bill, opening to settlement the old Fort Hall, Idaho, military reservation, containing about 100,000 acres.

Delegate Flynn, in the house secured an amendment similarly opening a tract of about 2,000,000 acres of the Kiowa and Comanche lands in Southwest Oklahoma.

The conference has covered many weeks and has been very stubborn but as agreed today the lands will be opened as stated.

The Indians first receive allotments of Oklahoma lands of 160 acres each; with 480,000 acres to be held in common by them, the balance of 2,000,000 acres being opened to homestead settlers for $1.25 per acre.

ALL THE NEWS

Fair today; showers and cooler on Wednesday.

Silver 60; lead $3.97½@4.02½. Copper $16.75.

N. Y. stocks relapsed into apathy and hesitation; money 12@6.

Strength of corn dominated Chicago grain but trade was dull; provisions strong and at times active.

Strawberry crop in the Grand valley surpasses that of any previous year.

J. T. Cox, charged with robbery, of Boulder postoffice, has been arrested in Portland, Ore.

State Federation of Labor is in session in Cripple Creek.

A dispatch from Louisville, Ky., says J. L. Metcalf, general manager of the L. & N. railroad, has tendered his resignation to the president of the company to take effect in July. He will accept a similar position with the Denver & Rio Grande, with headquarters at Denver.

WASHINGTON

Senate—Speech on Philippine question by Mr. Teller was the feature of the day. Pettigrew made effort to obtain consideration of anti-trust bill passed by the house Saturday.

House Senate appropriation of $5,000,000 for St. Louis exposition was agreed to; everything indicates adjournment Wednesday.

Conference agreement reached which will open for settlement old Fort Hall, Idaho, military reservation, 400,000 acres; also about 2,000,000 acres of Kiowa and Comanche lands in southwest Oklahoma.

It is believed that the president has decided to appoint General Joe Wheeler commander in chief of the volunteer army.

Reports of American army officers who have been watching the South African war are regarded as highly important in substantiating conclusions hitherto based upon theory.

General Greely says the South African war will do more to preserve peace during the next twenty years than The Hague conference or anything of that character.

Executive session senate ratified extradition treaty with Switzerland; action on nomination of W. D. Byrnum as appraiser at New York was prevented by his supporters who feared adverse vote.

Authorities are preparing for the transfer of Neely to Havana.

Senator Morgan from the committee on inter-oceanic canals favorably reported the resolution for the abrogation of the Clayton-Bulwer treaty.

U. S. Minister Conger at Pekin reports murders and persecutions by the "Boxers" on the increase, and that the Chinese government seems unwilling or unable to suppress the trouble.

SOUTH AFRICAN WAR

No official news from Pretoria.

It appears that Lord Roberts' immediate army is all employed north of Johannesburg, and that six columns are converging on Pretoria.

Dispatches purporting to come from Pretoria via Lourenzo Marques under date of June 1, say a great war council of generals had just concluded its deliberations, but conclusions had not been made public.

FOREIGN

The Boxers are reported four miles from Pien Tsin and an attack is expected; reports of murders of missionaries are said to be fictitious.

Russia is increasing efficiency of the Baltic, Black Sea, Mediterranean and Asiatic fleets.

Statue erected by subscriptions opened in France and United States in honor of General Rochambeau unveiled at Vendome, France.

GENERAL

Meager returns from Oregon indicate that the Republicans have carried the state by from 5,000 to 8,000 majority.

Fourth annual convention of the American Park and Outdoor Art association will open in Chicago today.

West Virginia Democrats will hold their state convention Wednesday and unusual interest is already manifested.

Missouri state Democratic convention meets today at Kansas City; ex-Congressman Dockery is stated as the nominee for governor.

Marriage of Miss Mae Rogers, daughter of president of Standard Oil company, and William R. Coe, took place in New York.

James Brown Potter granted divorce from Cora Urquhart Potter; wilful desertion.

Louisiana Democrats instructed state delegates for Bryan.

CONVERGING ON PRETORIA

Lord Roberts' Immediate Army Employed North of Johannesburg.

DISPATCHES STILL CONFLICT

Message From Pretoria Dated June 1 Says a Great War Council of Generals Has Been Held.

London, June 5 (3:20 a. m.). Of official intelligence regarding what is transpiring outside Pretoria there is little or nothing today. Lord Roberts is silent.

Nevertheless, by piecing together items from various correspondents, it would seem that Lord Roberts' immediate army is all employed north of Johannesburg, except one brigade, which is at Johannesburg, and that six columns are converging on Pretoria.

An undated news agency message from Pretoria, via Lourenzo-Marques, June 4, says:

"Pretoria is now invested by the British. No resistance will be offered. The city will be surrendered to the burgomaster as soon as a formal demand is made."

This message purports to come in spite, however, of the fact that the telegraph eastward from Pretoria and telegraphic news from Pretoria to Lourenzo Marques has ceased, but the messengers of newspaper correspondents continue to pass to and fro on the railway.

The latest to arrive at Lourenzo Marques being events at the Boer capital down to late hour Friday night. At that time, it is said, the Boer officers in receipt of information the military leaders had decided to retire from the Transvaal and defend the town. One message, which is dated June 1, says:

"Pretoria is full of straggling burghers, but most of the commandoes are hastening outside. A great war council of generals has just concluded its deliberations. The decision as to the future military course has not been made known. Louis Botha and Delarey are in the council."

Another dispatch brought to Lourenzo Marques by messenger and dated at Pretoria, Friday, at midnight, says:

"The war council assumes the powers of government. It has decided that the capital may still be successfully defended. One commander declared: 'With the help of God the English will acknowledge the independence of the two republics. A tremendous change will yet come over the situation.'

"General Delarey said that Pretoria would be defended to the utmost, adding: 'There is every chance that we will yet beat the enemy out of our country.'

President Kruger is somewhere to the eastward but is in constant wire communication with the leaders here. There is, however, a deep feeling of anger against him on account of what is now called his unnecessary flight and because he took all the gold and left their subordinates unpaid. The latest phase of public opinion is a marvelous revival of courage.

From Lourenzo Marques comes a dispatch dated June 4, saying:

"It is known that some great movement is in progress outside of Pretoria. The mysterious movements of President Kruger's secretary and physician, particularly their visit to the Dutch consulate, Lourenzo Marques, and his departure thence, have aroused suspicions that important personages are expected."

The news from the minor theaters is of a less cryptic nature. The Boer operations to break Lord Roberts' communications have been completely baffled and the Boer columns are in danger of being surrounded by the British forces at Ficksburg, Senekal, Heilbron and Lindley. General Pundle instead of threading himself against the Boers intrenched at Heidelburg, moved toward Ficksburg and established communication with General Brabant. The Boers marched parallel with Rundle, intending to seize a strong position on the Ficksburg road, but General Rundle got there first. The 1,500 Boers who were in this movement are now reported to be going elsewhere. The correspondents with General Rundle continue to point out the hardiness of the fight of last Tuesday but they believe that it will be the last real resistance.

Colonel Lloyd was thrice wounded.

Drummer Haynes, while aiding Colonel Lloyd was shot in the hand which was resting near the colonel's heart.

General Buller's guns throw a shell or two toward the Boer positions in front of Laingsnek daily. General Baden-Powell is still at Marekwing, General Hunter's column is marching upon and into the Transvaal beyond Ladysmith.

CLUB WOMEN IN SESSION

Discussion of Presidential Possibilities for the General Federation.

Milwaukee, June 4.—Tonight fully 4,000 club women and three times as many trunks have arrived in preparation for the convention of the General Federation of Women's clubs.

Most of the delegations canvassed on the train and the result is that there are numerous presidential possibilities. It is evident Mrs. Lowe can have a re-nomination if she wants it, but as she declares she will not accept it the New York delegation is working solidly for Mrs. William Tod Helmuth of New York city, though Mrs. Charles Denison of the same city is mentioned as the probable recipient of Mrs. Lowe's support.

The Colorado women would like to have Mrs. Sarah Platt Decker but she will not consent as long as there is even a slight possibility of Mrs. Lowe changing her mind.

The Massachusetts contingent came in with their support given to Mrs. Annie West of Boston, their state chairman of correspondence.

New Jersey arrives with a candidate in the person of Mrs. Emily Williamson, of Trenton, and the name of Mrs. Brock of Lebanon, Pa., is also numbered with the aspirants.

The color question as it crops out in Mrs. Josephine Ruffin, of Boston, a delegate from a colored club, was temporarily settled today by the board of directors tabling its application for membership. This will leave Mrs. Ruffin to continue as a delegate from two organizations of white women, the New England Press association and the Massachusetts Federation. The Massachusetts women are much embarrassed over the issue and the board of directors, on the other hand, feel that they have taken the wisest course possible in refusing to establish the precedent of accepting a club made up mostly of colored women, as is the New Era club, of Boston, of which Mrs. Ruffin is president.

Following the board meeting today there were three brilliant receptions in the evening. The state officers received at the Plankinton, the Biennial board were at home at the Deutscher club, and the National Art committee opened their big exhibit in a social way.

Tomorrow the convention proper will open at the Alhambra theater with Mrs. Lowe in the chair. There will be addresses of welcome and the biennial address of the president. The evening programme at the Alhambra will be devoted to sculpture.

PITCHED BATTLE IN THE STREETS OF A TEXAS TOWN

Houston, Tex., June 4. At San Augustine, this morning, a pitched battle between the Wall faction on the one side, and the Davis on the other, resulted in the death of Felix G. Roberts, his brother, Sidney Roberts, and the fatal wounding of Noel Roberts, sheriff of the county, and brother to the dead men. The feud grew out of politics and has been brewing for some years.

A few weeks ago Ned Wall, the sheriff, was shot and killed by King Borden at San Augustine. Borden fled but afterward surrendered and was admitted to bail. Noel Roberts was appointed sheriff. Last Saturday evening Eugene Wall, brother of the dead sheriff, shot to death Ben Brooks, a kinsman of Borden. Today the factions met when the examining trial of Wall, who killed four men in as many years, was to be held and every man in the court-house was armed. Hostilities began with the appearance of Sheriff Roberts and his brothers, who fell at the first volley from a score of guns. A few scattering shots were returned by the Wall factionists, but did no execution. Sheriff Roberts was removed to his home, where he died in a short time.

Application was at once made to the governor for troops and the Stone Fort rifles were ordered from Nacogdoches, but they have to go by stage and will not arrive at San Augustine until tomorrow. There is much excitement and more trouble is feared.

Both factions are large and composed of nervy men. Eugene Wall, the leader of his faction, is 26 years old and has killed four men in as many years.

LATEST DEVELOPMENTS IN CUBAN POSTAL FRAUD

Havana, June 4.—Acting Director of Posts Bristow today inquired as to the amount of postal funds taken by C. F. W. Neely in May, 1899, and ascertained that it was $3,813.30. Neely's monthly average was about $17,000. His system of bookkeeping was simplicity itself. Apparently he merely divided the amounts received, taking one-half for himself and accounting for the other.

This morning the examination of Estes G. Rathbone, former director of posts, was continued. It lasted more than four hours.

The most startling fact developed was that on May 26 of last year, Mr. Rathbone ordered special agents Leatherer and Sullivan to examine the accounts. They found a shortage but it was not thought that anything had gone wrong. They reported, however, that there was no check upon the bureau of finance and they recommended that certain blank forms be made which would answer the purpose, such as all postmasters use when making their reports to the department monthly. Mr. Maynard, then chief agent, indorsed the recommendation and forwarded it to Mr. Rathbone. The latter approved it and sent it to Auditor Beeves, who forwarded it to Neely. Instead of putting the scheme into operation, he quietly pigeonholed it and it did not see the light until May 15 of this year, when the plan was put into effect.

Mr. Bristow says he is almost sure that the extent of the steal will amount to something between $80,000 and $100,000, but that this will not touch the item of surcharge stamps which is $111,000. As to how many of these were burned and how many sold it is impossible to obtain definite information.

THE NEWS OF CRIPPLE CREEK

State Federation of Labor Has Begun Sessions.

IMPORTANT WORK BEFORE IT

Among Other Matters is the Proposition to Name a Full Ticket for State Officers.

Special to the Gazette.

Cripple Creek, June 4.—The delegates of the State Federation of Labor were warmly welcomed to this city and the district this morning by Mayor E. P. Arthur of this city, Mayor W. J. Donnelly, of Victor, and Mayor W. D. Whalen, of Altman.

The delegates met 160 strong in the Odd Fellows hall, promptly at 10 o'clock. The meeting was called to order by Ed Nathan, secretary of the committee on arrangements, who introduced Mayor Arthur. The mayor's remarks were brief and to the point and complimented the brain and brawn of the workingmen of Colorado. Mayor Donnelly of Victor informed the visitors that the latch string of the city of Victor is always out and extended a warm invitation for them to visit the city of mines. Mayor Whalen also extended an invitation to those present to visit Altman, the highest incorporated city in the world.

W. H. Leonard, president of the Trades Assembly, then addressed the convention, appealing to his hearers to stand together politically. He also extended the hand of good fellowship on behalf of the unions of the city and district. D. C. Coates, of Pueblo, president of the State Federation, was then introduced and responded on behalf of the visitors.

He thanked the mayors of the different cities for their cordiality and hospitality, referred to the progress made by labor organizations throughout the United States and deplored the conditions now existing between capital and organized labor in the cities of St. Louis, Kansas City and Chicago. Mr. Coates hoped that the difficulties would soon be settled with satisfaction to all concerned. His speech was interspersed with some humorous remarks and was full of good, common sense. He was frequently cheered by the enthusiastic delegates.

The report of Secretary J. K. Robinson showed the federation in better shape than at any previous time in its history. More unions are affiliated and the membership is gradually increasing. Colorado from the standpoint of organized labor is in better condition than any other state in the union. The financial condition is excellent. The few disagreements which have occurred during the past year have been satisfactorily adjusted. There are now no strikes existing in the state.

The Mining union is more generally represented than any other. Besides the local union there are representatives from Aspen, Baldwin, Durango, Dunnville, Ironton, Lamartine, Leadville, Lowville, Ophir, Ouray, Rico, Red Mountain, Superior, Telluride and Vulcan, and nearly every trade in the state is represented.

A number of important questions will come up before the convention which will remain in session until Friday. Among them will be a proposition to put a state ticket in the field this fall. Another important question from a federation standpoint will be a movement for more thorough organization of the outlying districts of the state and further organization in the large towns and cities.

Tonight the delegates, accompanied by a large number of members of local unions, paraded the streets led by the two bands of the city.

Nichols Fatally Dead.

Charles Nichols employed as a trammer in the fine crushing department of the Aroya mill, met a horrible death last night while helping adjust a belt on a pulley. His clothes became wrapped around the shaft. He was whirled around several times, striking on some timbers and literally mangled. His skull was broken in several places, the brains being scattered over the floor and timbers. Both feet were knocked off above the ankles and the left arm torn off. His body was bruised in a dozen places, many bones being broken. The bones of the knees and of the legs above were crushed. His clothes were torn to shreds, which being found on the floor still running and but slightly spattered with blood, brains and [illegible] summoned and examined the premises. He held an inquest tonight, the jury returning a verdict of accidental death and exonerating any one from blame. The deceased was a member of the masonic lodge and the remains will be shipped to Sheboygan Falls, Wis., for burial.

Calhoun Triumph.

The hearing of the injunction suit of the Calhoun company against the owners of the Triumph mine was concluded in the district court this morning. Judge Stimson declined to enjoin the defendants but made an order to set the case for final hearing as soon as suits are ready, that meanwhile the defendants are required to keep the ore mined from the two properties separate and deposit with the court all net proceeds with leave for each to apply to the court for an allowance for reasonable expense of mining. The plaintiffs are to have access to all the works of the Triumph mine to fully develop and expose the vein of which plaintiffs claim the apex.

The adverse suit of the Helena company against the Ralph owned by J. M. Ware et al, involving a question of priority of discovery was decided today by a jury in favor of the plaintiff.

POSSE COMITATUS

Men Armed With Shotguns Loaded With Buckshot Guard Property in St. Louis.

St. Louis, June 4.—Every power house and car shed of the Transit company is being guarded tonight by Sheriff Troutman's posse comitatus. About 900 men are on duty.

A force of from fifty to sixty men has been stationed at each power house and will remain on duty throughout the night.

At 7 o'clock tomorrow morning an equal number will relieve those on duty and remain until night. This will continue until the strike is settled. The posse is armed with Winchester repeating shotguns. Shells loaded with buckshot will be used in case of a disturbance.

None of the deputies will be used to guard the cars, the police being retained for that service.

CONGRESS IN LAST GASPS

Speech by Mr. Teller Was a Feature of the Senate Session.

NO DELAY SEEMS PROBABLE

Miers of Indiana Precipitated a Brief But Heated Discussion in the House on Pension Matters.

Washington, June 4.—The senate convened at 10 o'clock today with no special order of business in view.

Mr. Morgan of Alabama reported from the committee on inter-oceanic canals a resolution declaring the Clayton-Bulwer treaty abrogated. He gave notice that he would call up the resolution tomorrow.

Mr. Allen asked that an hour be set aside today for the consideration of pension bills.

Mr. Pettigrew objected. He said there were many bills on the calendar which were more important than the pension bills. The pension laws, he thought, were defective and unjust and that special favors were being granted for political effect. Further, he declared that more pension bills had been passed at this session than at any session for years.

Mr. Gallinger, chairman of the committee on pensions, challenged Mr. Pettigrew's statement as to the number of pension bills passed.

A Speech By Teller.

After many efforts had been made by senators to obtain consideration for various bills, all of which were objected to, Mr. Teller addressed the senate on the Philippine question.

He referred to the speeches on the same subject delivered by Mr. Beveridge, Indiana; Mr. Lodge, Massachusetts, and Mr. Spooner, Wisconsin, declaring they contained a strong political bias and an evident desire to advance the policy of the administration rather than to arrive at a just and righteous solution of the problem presented. He declared that the speeches of the senators he had referred to had each contained outlandish references to the president of the United States, [illegible] Some of the speeches of the Republicans had been marred in his opinion by "attacks upon the integrity of democratic candidate for the presidency (Mr. Bryan). It would be his effort not to make a political speech, although he was [illegible] with opposition to the Republican party. He was one of those who believed that American sovereignty attached to the Philippines, to the island of Luzon, at least. "By the laws of war," said he, "we occupied those islands. When we became masters of the island of Luzon we became practically master of all the islands."

Further along Mr. Teller said:

"I believe a republic may have and may hold colonies, but those colonies must be founded on a participation in the government of the people by the colonies. I see no way to surrender the Philippines."

Nobody, so far as he knew, had advocated the abandonment of the Philippines.

Campaign Issues.

As to the question relating to the Philippines as it will be presented in the approaching campaign, Mr. Teller said:

"I don't know whether imperialism is to be an issue in the coming campaign or not. It will not be unless the Republican party shall make it an issue."

He referred to the speech of Mr. Hoar of Massachusetts as showing infinitely more concern as to the fate of the Republican party at the elections of next November than that justice and right should be meted out to the Filipinos. So it was, he declared, with Republicans everywhere. It was the most striking part of the senator's speech, he said, that he should have exhausted so strong an appeal to his party not to [illegible] defeat in the campaign to refuse to change its policy.

Entering upon a sharp and extended criticism of the government provided by congress for the people of Puerto Rico, Mr. Teller said it was a part of the imperialistic policy of the Republican party.

In conclusion, Mr. Teller said he would not support the Republican party in the approaching campaign.

"I did not support its financial policy, and I do not support the Philippine policy as foreshadowed in the pending measure (the Spooner bill), and I do not want to give up the islands, either. They should be a source of great advantage to us. They stand in the great pathway of the commerce of the world, and they can be made of immense value to this country."

Postoffice Clerks.

At the conclusion of Mr. Teller's speech, Mr. Wolcott of Colorado, chairman of the committee on postoffices and post-roads, moved to recommit to the committee a bill for the classification of clerks in first and second class postoffices.

Mr. Wolcott said it had been stated that the first and second class postoffice clerks of the country had contributed $10 or more each to be employed in this campaign, a cause absolutely senseless and of no use whatever. As lobbyists, Mr. Wolcott said, some good men, perhaps, and certainly some notoriously bad men had been employed. He thought the clerks ought to be advised that such contributions gained them nothing.

Mr. Butler of North Carolina interjected the remark that the amount assessed upon the clerks had reached the sum of $600,000.

Mr. Wolcott said he had little doubt of that, as every lobbyist with a political pull was on the pay roll.

The bill was recommitted.

The following bills were passed:

Changing the place of holding the United States court from Cameron to Lake, Ia.

To provide for the use of timber and stone for domestic and industrial purposes in the Indian Territory, returning to the court of claims for adjudication the claims of Smith, Meyer & Price, architects of the Choctaw capitol building.

House Trust Bill.

When the house bill for the regulation of trusts was received, Mr. Pettigrew moved that it be placed on the calendar, instead of referring it to a committee, as usual in such cases.

Mr. Gallinger suggested that the importance of the bill and moved its reference to the committee on judiciary.

Mr. Pettigrew said he would ask the yeas and nays on this motion and expressed the opinion that congress should not adjourn finally without enacting some anti-trust legislation.

The chair decided a motion previously entered by Mr. Allen to go into executive session to be in order and this question prevailed without division.

The senate remained in executive session until 2:25, and when the doors were reopened and some routine business was transacted.

The parliamentary status of the anti-trust bill was asked by Mr. Hoar and the chair stated that it had been read once but could not be read a second time unless by unanimous consent, and a second time no motion to refer it or to consider was in order.

Mr. Allen (Pop., Neb.) asked unanimous consent for its second reading. Mr. Aldrich (R., R.) objected, saying that the bill could not be passed at this session. It then went over until tomorrow. Mr. Aldrich, giving notice that he would move to consider it tomorrow.

The senate then took a recess until 8 o'clock.

THE HOUSE AGREED TO ST. LOUIS APPROPRIATION

Washington, June 4.—The house today agreed to the senate amendment to the sundry civil bill appropriating $5,000,000 for the Louisiana Purchase exposition at St. Louis. There was not a word of debate on concurrence in the amendment. It was after 6 o'clock when the matter came up, and owing to the lateness of the hour and the overwhelming majority in its favor the opponents of the fair appropriation did not even make a show of opposition. They contented themselves with demanding a roll call, which resulted 127 ayes to 75 noes in favor of the appropriation.

Only four appropriation bills remain in dispute between the two houses. Mr. Tawney of Minnesota is making an effort to delay final adjournment until action is had on the Grout oleomargarine bill, but he says will be unsuccessful in this.

Everything so far as the house is concerned indicates final adjournment on Wednesday.

Three members were on the floor demanding recognition of a question of personal privilege after the journal had been approved. Mr. Alexander (N. Y.) was first recognized. His question of privilege was an echo of the bitter fight now being waged in the northern New York against the nomination of John B. Hazel as United States district judge, and consisted of a denial of statements made in a speech by ex-Representative T. B. Mahany of Buffalo.

Pension Inquiry.

Mr. Miers (Ind.), as a matter of privilege, moved the adoption of a resolution of inquiry offered more than a week ago and which had not been reported back from the committee on invalid pensions within the time which it must be reported back under the rules. The resolution called upon the secretary of the interior for all reports relating to the dropping from the pension rolls of certain widows. He understood, he said, that more than 30 widows had been dropped from the rolls upon the report of Examiner Goodlove, who, he was informed, had asked the widows certain questions which could not be repeated in the house. He was also informed, although he did not believe it, that the commissioner had authorized this infamous line of questions. Special Examiners Harris and Room, he was informed, had made special reports upon Mr. Goodlove's action, for which both had been reduced. The line of inquiry complained of had reference to the character of the widow since her husband's death. Mr. Miers had read an interview with ex-Commissioner of Pensions Tanner denouncing the practice of pounding of such insulting questions to the widows of soldiers. He proposed that the country shall know what truth there is in these charges."

Ray's Criticisms.

Mr. Ray (N. Y.) criticised the resolution as being indefinite and unintelligible. The words of the resolution were "certain widows." Who were they, he demanded to know. He insisted that names and not numbers must be given. He challenged Mr. Miers to give the name of one widow.

"I will to the gentleman's shame," said Mr. Miers amid applause from the galleries.

"Is the gentleman prepared to give the names of the widows who have been offended?" persisted Mr. Ray.

"I will respond in my own time," replied Mr. Miers.

The gentleman's response" reported Mr. Ray, "shows the purpose of this resolution. It is a covert assault on the secretary of the interior and the commissioner of pensions."

Mr. Lacey (Iowa) said he did not presume Mr. Miers expected the resolution to be adopted.

"He has served the gentleman's purpose," said he, "in giving him an opportunity to make a speech. If any specific charges are made they will be investigated. The resolution should be voted down."

The chair held that the pending question was to discharge the committee from the consideration of the resolu-

No Sign of Peace Among Arapahoe Democrats.

MALONEY ITES CLAIM VICTORY

Wolfe Hall Commencement Another Washout in Platte Canon—New Catholic Church Dedicated.

Denver Bureau
Colorado Springs Gazette

Denver June 4—The fight of the Democrats in Arapahoe county over their action in the state convention is creating a great deal of bad blood and it looks as if the peace committee will not succeed in making any compromise. The Maloney faction of which W F Bonnell is chairman, says they have the signatures of the votes out of the delegations and give the Maloney ites a majority of four in the convention by at least three with a possibility of four to one in favor of securing the Maloneyites to no compromise whatever. Colonel Maloney says that he has received a telegram from Bush outside of the city to stand to in the matter and if only Bush is true to his word the Maloney faction will be able to seat his delegation with the outside delegates, misrepresented that he is not fighting Governor Thomas but simply carrying out the instructions of the state central committee.

Wolfe Hall Commencement

The Wolfe Hall commencement exercises will be held this afternoon at 3 o'clock at the Cathedral. Bishop Spalding of Peoria, Ill., will deliver the address in the class of 1900. The young ladies who have become members of the Wolfe Hall alumnae are Lucy Jones of Sydney, Neb., Dora Palmer of Pueblo and Lillian Hall, Alice Fowler and Cecile Leimkuhl of Denver.

The annual meeting of the Denver Country club will be held this evening at the club house. The election of officers for the ensuing year will be held and the question of the purchase of the property will be discussed.

Rev. Father Sullivan received a telegram from Portland, Or., stating that Father J. Cox who has been transferred by the archbishop of Portland to Denver, will arrive in this city on Wednesday.

The new Methodist Episcopal church in the west Denver suburb of Highlands will be dedicated tomorrow. The former dedicatory sermon will be preached by Bishop Warren of Denver. Rev. Mr. Mass will also preach a sermon. The Highlands church is a handsome edifice and cost about $15,000. The building committee consisted of Rev. Mr. Mass, Mrs. Alice Hamilton and Mrs. Ella Cole.

Rev. Father Sullivan, pastor of the Catholic church at Canon City, is in the city.

Rev. Father Dunne of Cripple Creek is in the city.

Rev. Father Malone of Cripple Creek is in the city.

Rev. Father Fitzgerald of Canon City

Coupons Will Be Sewed and Sealed

There is one thing that has always impressed the public in connection with the Gazette coupon contests and that is the absolutely fair and square showing each contestant has in the matter of the distribution of votes. In addition to the cancellation of all coupons in papers left in the Gazette office, the coupons which are brought to the Gazette office are to be securely sealed in such a manner that there is no chance for any mistake or unfairness.

Each package of coupons that is brought to the Gazette by any person is to be in the form of a sealed envelope on which are marked directions as explained below.

The presence of the person who brings the coupons in a needle and thread will be put through the package, envelope, coupons and all and the ends will be sealed. The end of the envelope will be cut in order that the count of the coupons may be verified and the package, still sewed through and sealed will be left to be counted by the committee.

Complaints are already being made by subscribers because boys or other persons have been cutting coupons out of the Gazette and cutting the coupons from the papers. One or two such instances have been reported. All such cases will be followed up by the Gazette, a watch being put on any district where the interest or work is reported and any person caught will be prosecuted to the full extent of the law.

How to Vote.

Fill out the voting coupon printed in this issue of the Gazette and write plainly the name of the candidate you desire to vote for. Then cut out the coupon and send it in an envelope addressed to the Gazette voting box or clerk. Each envelope received will be sealed the same as an express money package in the presence of the party depositing the vote when delivered in person, and only the end of the envelope will be opened for the verification of the count of inclosed coupons, leaving the package practically intact for the committee who will finally count and verify the Gazette's preliminary count.

Votes

For.....

From.....

Dated.....

Remarks.....

Under the head of "Remarks" candidates may be announced and any reasons for support that friends of candidates may desire to have printed in the Gazette should be set down under this head on the outside of the envelope or sent in an envelope separate from the one enclosing coupons. Each envelope received will be sealed the same as an express money package in the presence of the party depositing the vote when delivered in person, and only the end of the envelope will be opened for the verification of the count of inclosed coupons, leaving the package practically intact for the committee who will finally count and verify the Gazette's preliminary count.

THIS COUPON Counts ONE VOTE

IN THE CONTEST FOR THE

Summer Cottage (Two Lots) Furniture and Crown Piano

TO BE GIVEN TO

The Most Popular Young Married Couple residing in the Counties of

El Paso and Teller

The Colorado Springs Gazette Publishing Co.

W. Wheeler Peck, MANAGER.

NOTICE—The penalty for buying or selling votes is confinement in the penitentiary for a term not less than one year nor more than fourteen years.

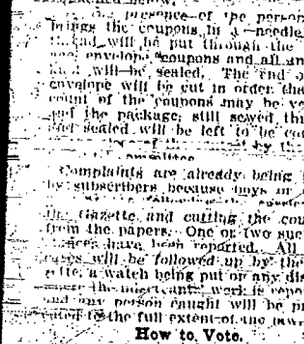
S. S. BERNARD BUYS GOOD HORSE FLESH

S. S. Bernard received yesterday from the Toler Stock farm at Wichita, Kansas, a span of the finest harness animals in the west. Judge Toler, who started all of the harness races at Roswell last week, has charge of these horses, which came yesterday in charge of his son, M. F. Toler. Both animals are in fine condition, considering such journeys, and will kick dust on Colorado Springs streets the first time this morning.

Gertie Mc., a four-year-old sorrel filley, was sired by Myron McHenry (2:05¼), a full brother of John R. Gentry (2:00¾) and foaled by Monzanti, the dam of Mozetta (2:29), by Monigomery (2:21), son of Inherit. Her full brother, Moment, is three years old and a perfect match in color, action and manners, making a handsome team.

The price paid for the team is large. John R. Gentry was bred on the Toler farm, which has numerous other noted animals to its credit.

DR. W. L. ELLISON



SPECIALIST IN diseases of the lungs, nose, throat and chronic diseases of men, women and children. The Sulphur inhalation for the treatment of pulmonary tuberculosis and kindred diseases. His office is equipped with instruments of precision for the scientific examination and successful treatment of these diseases. If you live out of the city, write. This treatment can be taken at your home. Office, 24 North Tejon street (over Craigue's grocery store). Hours: Week days, 10 to 12, 2 to 5, 7 to 8. Sundays, 3 to 4.

JUDGE MORRIS IS BACK FROM ST. PAUL

Judge W. S. Morris returned yesterday from St. Paul where he participated in the argument before the United States circuit court of appeals of the Jackson franchise appeal. C. J. Hughes, Jr., and Guy La Roy Sievick represented the Pike's Peak Power company, while R. A. Lewis assisted the city attorney. The [illegible] and was spirited. The matter was taken under advisement by the court.

Mr. Lewis went from St. Paul to visit relatives in Missouri before returning to Colorado Springs. The case may be decided very shortly.

SENIORS PLAY THE FACULTY

The report that the faculty of Colorado college would back out of playing the seniors a baseball game this year, according to custom, are unfounded, in spite of the fact that Dr. Lancaster has gone to New Hampshire and the probabilities that some of the other profs may get scared and follow "Lanky's" example. The time set for the game is 10 o'clock next Friday morning, without fail, and the money that is realized from the admission fees of 25 cents will be added to the senior class memorial fund. Captain Browning of the seniors has received from the faculty its list of formidable invincibles. "Proxy" may catch for an inning or two, and then "Drysdot" will be advanced from academy through B. A. L. The drive for the express purpose of hanging on to the tout tips of the seniors. Clarke will pitch for the faculty, but his curves will be greeted with a "what ho, messenger," to send out to pasture back of the outfielders, so the seniors hope. Prof. Smith, who will hold down first base, vows that he will knock a two-bagger the first time he comes to bat, but some of the seniors, as well as the professor, are from Missouri. Hot liners will graze Prof. Walker's golf clothes at second and fan breezes to Prof. Parsons at short. Prof. Bowers will play with variations at third; Prof. Brookover intends to play a sparkling game in left field. Jokey Noyes will try to flunk out as many naughty naughts as possible from center field, and Profs. Ahlers and Pattison will divide honors in the right field.

The seniors have not yet picked their team, but they have some star players, men who can play anywhere on the diamond. Browning can catch, Caldwell and Barnes can pitch, right and left respectively, Zumstein can pitch or play first, Cooley can play first or short with equal facility, and among the other fellows who are showing up well in practice are Ingersoll, Downey, McClintock, Isham, Chapman, Floyd and Bailey.

CUTLER ACADEMY DEFEATS HIGH SCHOOL

The Cutler academy base ball team closed the season yesterday by defeating the local high school on Washburn field to the tune of 13 to 0. The academy team, which had several subs in its line up did not play up to its usual standard, due no doubt to the weakness of its opponent. At critical times, however, they braced sufficiently to prevent the visitors from scoring and their chief pleasure seemed to be in letting the high school boys get their bases full with no outs and then shut them out from scoring.

This they did several times to the merriment of the spectators. If the high school boys had had sufficient practice and team work they could easily have made it interesting for the academy red birds for, individual playing at times was fine and elicited considerable applause from the spectators. The best of feeling exists between the academy and high school and it is earnestly hoped that this feeling may continue and it may [illegible] the patronage of the [illegible] for [illegible] what is more disgusting than two cheers in the same city constantly at war with each other.

The academy team will meet next Friday at the Alta Vista and elect a captain for the ensuing year, when it is to be hoped that they will have the opportunity of meeting the teams of the interscholastic league.

Kansas City	19	21	.475
Buffalo	13	23	.361
Detroit	11	24	.314

Boston 6; St Louis 3.

Boston, June 4.—By hard and consecutive hitting Boston took the lead in the third inning of today's game. Umpire Swartwood declared Dunlin out for interference in the fifth. The decision occasioned considerable excitement. Attendance 4,000. Score:

Boston .....0 0 4 0 2 0 0 0 *—6
St. Louis .....1 1 0 0 0 1 0 0 0—3
Hits—Boston 6; St. Louis 4.
Errors—Boston 2; St. Louis 1.
Batteries—Dineen and Clarke; Hughey and Robinson.

Pittsburg 5, Philadelphia 4.

Pittsburg, June 4.—Ten innings were required to decide today's game between Pittsburg and Philadelphia. In the 10th inning, after two men had struck out, Wagner singled and Beaumont doubled, scoring Wagner across the plate with the winning runs. Attendance 4,000. Score:

Pittsburg .....0 0 0 2 0 0 0 0 0 1 1—5
Philadelphia .....3 0 0 1 0 0 0 0 0 0 0—4
Hits—Pittsburg 10; Philadelphia 7.
Errors—Pittsburg 1; Philadelphia 2.
Batteries—Waddell, Phillippi and Zimmer; Platt and McFarland.

Chicago 6; Brooklyn 4.

Brooklyn, June 4.—After being touched up for fourteen hits and five runs, Kitson was relieved in the sixth. Kennedy took his place, and Chicago's batting game was checked, but Brooklyn could do very little with Griffith and only succeeded in getting up in the ninth on the eighth by a sharp double play by Childs and Ganzel saved him. Attendance 14,000. Score:

Chicago .....0 1 1 1 2 0 0 0 1—6
Brooklyn .....0 0 2 0 0 0 0 1 1—4
Hits—Chicago 10; Brooklyn 7.
Errors—Chicago 2; Brooklyn 1.
Batteries—Griffith and Donahue; Kitson, Kennedy and Farrell.

New York 7; Cincinnati 4.

New York, June 4.—The New Yorks won from Cincinnati today through sharp batting that was backed up by Hawley's effective pitching. Attendance 5,000. Score:

New York .....0 0 0 1 1 0 0 5 0 0—7
Cincinnati .....0 0 0 0 0 0 0 1 0 3—4
Hits—New York 13; Cincinnati 6.
Errors—New York 5; Cincinnati 3.
Batteries—Hawley and Grady; Hahn, Scott and Peltz.

HOME TESTIMONY.

Can Any Be Stronger, Carry More Weight or Be More Convincing Than Colorado Springs Testimony.

Make a mental note of it.

This man is well known in Colorado Springs.

His veracity is unquestioned.

You are reading local evidence.

Investigating home testimony.

Colorado Springs news for Colorado Springs people.

It's not from Maine or Montana.

Suspicion can't lurk around it.

Honesty is its best characteristic.

Endorsement its salient point.

Mr. J. J. McCarty of 13 South Corona Street, foreman of the Gazette, says: "For five or six years I was annoyed with attacks of backache, accompanied by slight urinary trouble. I took more than one medicine said to be a sure cure for kidney complaint, and like a great many others in Colorado Springs I procured Doan's Kidney Pills at Smith-Wilson Drug Co.'s store, expecting the results from their treatment to correspond exactly with other preparations I had taken in the past. The benefit received justifies me in saying that anyone suffering from kidney complaint or backache will find in this preparation something which acts differently and more effectively than anything heretofore tried."

Doan's Kidney Pills for sale by all dealers. Price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's and take no substitute.

THE PHILIPPINE COMMISSION.

THE arrival of the Philippine commission in Manila and the interview with President Taft, as published in yesterday's Gazette will revive the interest in the work of the commission.

Of its importance there can be no doubt, for upon it will depend in large measure the success or failure of the American dealings with the islands.

If the commission is able to get a civil government established and to gain the good will and confidence of the natives it will have gone a long way towards settling the difficult problem of the islands and it will then be comparatively an easy matter to make changes from time to time as the progress of the islands and the increasing aptitude of the natives for self government may demand. It is fortunate, therefore, that the personnel of the commission is of such a character and the instructions under which it is operating are so arranged as to give the best promise of its success. It is unfortunate that it does not enter upon its work with the additional strength of backing it might gain from the passage of the Spooner bill by congress, but on the other hand it is not hampered by any adverse or interfering legislation by congress.

According to the interview with President Taft, the commission begins its work in the right spirit and under favorable circumstances. We expect to hear shortly of the good results of its work in re-establishing order and bringing peace out of the chaos of war.

GERMS AND DISEASE.

ONE of the Chicago newspapers recently published a series of interviews with prominent members of the medical profession in that city regarding germs and their connection with disease, the most striking feature of which was the differences of opinion held by the eminent scientists.

As a rule, however, they were inclined to agree that the germ theory of disease was much less thoroughly established than many people who have not been following the subject closely of late years are inclined to believe.

That certain peculiar forms of germs exist in connection with particular forms of disease seems to be thoroughly well established, but that these germs are the cause of the disease is not at all so certain. It is an undoubted fact that so-called deadly germs often are found where there is no disease and it is the opinion of some experts that the healthy body under ordinary conditions is able to repel the attack of these organisms, to kill them and throw them off without injury. It is only when the vital force is weakened for some reason that the intruders are able to effect a lodgment and to begin their destructive work.

There is another theory which seems to be growing in favor which is that the germs are the result of the disease rather than its cause. According to this theory the disease itself produces certain conditions which are favorable to the development and growth of the germs, and the presence of these is in many cases beneficial rather than detrimental to the patient. If this be true, there would be little use in trying to cure disease by removing the germs, although that has been the principle upon which the serums and anti-toxins of recent years have been planned.

It is too soon yet to reach a definite conclusion in the matter. The battle between the friends of the germ theory and its opponents is being waged vigorously and while just at present its opponents seem to be getting a little the best of it, the result is indefinite.

On one thing though the doctors seem to be pretty well agreed. The best way not to get sick is to put more of the person who is in good health need have little fear of the person who is in good health need have little fear of the germs if these are the things to be afraid of, or of the disease, if that is the proper designation of our enemy. Modern research tends to emphasize the value of a good constitution and to exalt hygiene and sanitation above medicine and courses of treatment.

WHAT DOES MR. BRYAN REPRESENT?

IT is as certain as such things can be, that Hon. William J. Bryan will be the nominee of the Democratic national convention for president of the United States, just as it is equally certain that Mr. William McKinley will be the Republican nominee for the same position.

It, therefore, becomes a question of national, rather than of individual, importance to know just what Mr. Bryan stands for or what principles of government he represents.

And regarding this matter, there is no one so well qualified to speak as Mr. Bryan himself. It may be, of course, that the will of his party or the course of events might interfere to prevent the carrying out of his policy, but certainly Mr. Bryan is entitled to be heard on the issues of the day as he sees them.

There is there waiting at this particular time a definite statement of Mr. Bryan's views. In the June number of the North American Review the Democratic candidate for the presidency outlines his plan of campaign, his opinion of the leading questions of the day, and his ideas of the proper governmental policy.

His broadest and most general statement is the following:

> The issue presented in the campaign of 1900 is the issue between plutocracy and democracy, and these, in their last analysis, disclose the conflict between the dollar and the man—a conflict as old as the human race, and one which will continue as long as the human race endures."

In making this statement Mr. Bryan may state what he believes to be a fact, but it is nevertheless a falsity, and in declaring it Mr. Bryan proves himself to be a demagogue and not a statesman. For it is not true on the one hand that the Republican party is the party of plutocracy, or on the part of the dollar as opposed to the man, and it has not been possible for Democratic orators to bring facts in support of their charge that it is. It is true that the Republican party is largely responsible for a condition of progress which has made possible the combination of capital and the undertaking of commercial and manufacturing enterprises upon a mammoth scale, but it has been repeatedly shown that the ordinary individual has profited more greatly by these same conditions than by these same enterprises. The Republican party cannot fairly be said to be pro-plutocratic nor anti-democratic in the face of the unanimous declaration of its leaders that its policies are planned for the benefit of the people as a whole and not for the wealthy few, of the general sentiment known to exist among its voters, and of the record of what it has accomplished in the past and is trying to do at the present time.

Nor, on the other hand, is it true that the Democracy has shown itself to be engaged in delivering the people from the oppression of the rich. On the contrary its record has been that of insignificant promises made in the hope to keep able to keep.

According to Mr. Bryan the man, without the dollar is of more value to the nation than the dollar without the man, but he is mistaken in supposing that we are confronted with a choice between the two without other alternative. As a matter of fact and of actual condition the man needs the dollars and under Republican rule he is getting them.

SENATOR HANNA'S SPEECH.

AMONG the notable speeches recently delivered in congress was that of Senator Hanna, on Friday last. Senator Hanna has not been frequently heard in debate, this in fact being his second effort in that line, but he took rank immediately among the best orators of the senate.

He had very much the best of a series of interruptions from Senators Tillman, Allen, Williams and Teller.

Possibly the main point of his speech was that showing that foreign governments were paying $300 to $400 for armor plate, while Democratic senators are unwilling that this country should pay $445, and are delaying the completion of ships for the United States navy in order to make political capital against the trusts.

WAR RUMORS NOW RIPE.

THE approaching close of the British campaign in South Africa marks the ripening time of a crop of war rumors that for number and size will surpass anything of the kind with which we have been provided for a long time past.

It is evident even to the most inexpert in such matters that if the enemies of Great Britain are to act against her or in furtherance of their own schemes, now is the time to do it, before the huge armies which have been brought back to England, ready for home defense or for use in another foreign field.

It is very natural, therefore, that the correspondents should be watching for indications of an approaching storm, and as it happens there are several points which appear to be worthy of particular attention.

The most important of these is undoubtedly in eastern Asia, where Russia has recently developed her traditional policy of aggression to such an extent that she will soon have all she has ever asked for unless one or more of the powers succeed in checking her movements. The materials for such a struggle between the great powers undoubtedly exist at the present time and there is plenty of opportunity for the spec. correspondents to exercise their ingenious fancies for some time to come, even if nothing further develops in the way of actual news than has already been recorded.

We may therefore expect plenty of war heads in the next month or two and it is not at all impossible that war may actually come. Still it should be remembered that the strongest influences in the world at the present time are those which are distinctly peaceable and even peace compelling in their nature. Commerce and finance always are against war, and it is a long way, fortunately from war rumors to actual war.

GOVERNMENT BY INJUNCTION.

THAT there has been from time to time an abuse of the powers of courts to issue summary injunctions there is no doubt in spite of the vast amount of indiscriminate abuse of the courts and their just powers.

We are glad, therefore, that an attempt is being made to define the particulars in which the courts have exceeded their proper powers, for this will undoubtedly serve as a preliminary to a correction of the evil.

A committee of lawyers of the Social Reform club of New York city recently submitted a report in which it recommended that to prevent abuses an effort be made to obtain concerted action throughout the country in favor of urging upon the national and state legislatures the passage of bills providing:

(1) That injunctions shall not be issued against any but parties to the action, their agents, servants and attorneys.

(2) That when an injunction, however valid in part, prohibits the lawful use of the highway or the right of free speech, or lawful combination to advance joint interests, it shall be void in toto.

(3) That all persons who are charged with disobedience of an injunction in respect of a matter which might be the subject of indictment, shall have the right to demand a trial by jury upon issues of fact to be properly framed.

(4) That, where the question whether an injunction pending an action should be granted in a labor dispute, depends upon the determination of questions of fact arising on conflicting affidavits, either side shall have the right to demand that a jury be forthwith impaneled to try the same upon issues properly settled.

It may be somewhat difficult to appreciate the exact bearing of each one of these provisions upon the general matter, but we have the assurance of the committee above referred to that the adoption of such controlling laws would remove the real objection to the injunction, while at the same time leaving it in full force for all legitimate purposes of defending the rights of citizens and maintaining the authority and dignity of the law.

REDUCING THE DEBT.

THE Democratic party, in times of profound peace, had to borrow money and increase the public debt in order to carry on the government.

The Republican party, with all the unusual expenditures due to foreign war, and the expensive operations in the Philippines keeps on reducing the bonded indebtedness by way known familiar to observers of Republican methods.

For the month of May, 1900, the reduction was $2,-

For the same month the treasury receipts aggregated $45,106,053 and the expenditures $40,33[illegible]. For the last 11 months of the fiscal year the receipts exceed the expenditures by $83,335,000.

AGUINALDO AGAIN DISPOSED OF.

AGUINALDO has again been disposed of, this time by an American detachment in northern Luzon, which after a long chase was rewarded by the capture of a horse covered with blood!! which as we are informed by cable, belonged either to Aguinaldo or [illegible]

Certainly the Americans are to be congratulated upon the importance of the [illegible] which will be, we doubt not, as others have been, far-reaching in its consequences.

As a matter of fact the time has past when the capture or death of Aguinaldo would make any particular difference in the situation in the Philippines. So long as he is alive and running around, loose his name may be used for the sake of stirring up trouble, but the worst that he can do is comparatively little, and his death or capture could not be expected to put a complete stop to the guerilla warfare that will continue to make life unpleasant for the Philippine regiments for some time to come.

The Democrats seem to realize that they made a false step in refusing to pass the constitutional amendment authorizing anti-trust legislation so they tried to save themselves by voting unanimously for the amendments to the Sherman anti-trust law.

But the effort serves only to show the hollowness and the insincerity of their professions.

They proclaim their willingness to vote for new laws against the trusts, but they are unwilling to provide the constitutional authority necessary to make those laws effective and forceful.

Gazette readers will do well to save the coupons now being printed in the paper. The candidates have not yet been announced, but before the contest is over there are lively times ahead and every one of those little pieces of paper will add to the interest for some one. Take the trouble to save the coupon every morning and later on you will have a nice little bunch of ballots to cast for some friend.

The new railroad to Cripple Creek has already accomplished enough good to justify the promises of its promoters, but its benefits have only begun. Wait until the trains have been running regularly for two years and the developments both in this city and the district will be almost beyond belief.

The Gazette takes pleasure in acknowledging the receipt of a copy of a brief speech made by Hon. John C. Bell of this congressional district upon the subject of the eight hour law and the shorter work-day that has come to stay.

It is fortunate for the country that the Democrats are constitutionally opposed to injunctions.

Otherwise they might have secured an injunction against prosperity.

There is no city in the west that is so prosperous as Colorado Springs but then there is no city that is so well advertised. Possibly there is more of a connection than a co-incidence between the two facts.

There is no better evidence of Republican success in Colorado this fall than the very general reports of progress and prosperity that come from all parts of the state.

Possibly Mr. Neely already has some doubts as to his ability as a dodger of the criminal law of the United States.

There are so many pretty things about the Republican party that even Senator Teller is betrayed into occasional bursts of admiration of it.

And the vice-presidential lightning is still a hovering.

Gazette Gayeties.

Or a finish
Fight
With any dummied foreigner
Who may show
His face
In the land where the
Rice fields grow.
The Englishman, German, Russian
And Yank
Are pouring in here with a
Mighty clank,
All over this goodly empire
Spread;
And they make it hot
If we feed them
Lead;
They come in here
In hungry
Bands
But they keep us out
Of their own
Fair lands;
Wow! Just let me
Get a good fair crack
At any foreigner
White or
Black;
And watch me make
These intruders
Beat
The hottest kind of a
Hot retreat!
If you
Think I am jesting
Keep your eye
On the
Terrible Boxer!
Hip!
Ki-yi!

Noise and Action.

"Yo cyurnt always tell," remarked Uncle Ephe, "how much work er mule 'll do by de loudness ob de bray."

The Modern Idea.

"I'm very much disappointed in Maude."
"In what respect?"
"Well I always thought she was such a romantic young woman."
"What has the [illegible] been?"
"Goodness! Haven't you heard? Why, she's married!"

In the Far West.

"What has become of that fine looking young fellow I saw around here a few days ago?" asked the stranger.
"You mean, Slippery Jim, I reckon. He's passed beyond," replied Rattlesnake Pete.
"Is that so? What killed him?"
"Fallin' in love, strangers jes' plain fallin' in love."
"With whom?"
"With Alkali Ike's sorrel mare, stranger."

Her Answer.

The Wife—I see by the papers that the government has given up the idea of making a success of wireless telegraphy. I wonder why?

The Brute—The Society for the Prevention of Cruelty to Animals objected on the ground that it would do away with telegraph wires and the birds would be deprived of a favorite roosting place. Say, who's been opening letters with this carving knife anyway?

Story of Two Administrations.

Senator Gallinger, of New Hampshire, made a statistical speech a few days ago which will be one of the important documents of the campaign. It contrasts, from a business point, the situation under McKinley with that which preceded it under Cleveland, and covers the ground with full data from official sources.

The contrast is striking. It shows that of high prosperity and effective legislation, on the other a summary of general industrial distress and of laws that, conceived in incompetency, rapidly tended to make bad conditions worse. The success of Cleveland in 1892 led to national adversity; that of McKinley in 1896 to good times and the greatest prosperity ever known. Senator Gallinger proves the proposition with actual figures. There has been no Democratic response to the senator's speech. Its facts are unanswerable. Democratic orators dare not touch it. Let the comparisons are of great value to the people and will make still clearer their political duty in the present year. The roads by which prosperity was lost and regained are indicated so plainly that to mistake the way again is impossible.

The shadow of an incapable party fell upon the country almost as soon as Cleveland was inaugurated. In 1893, Democrats were in full control of all departments of the government. Business trust sprang up on all sides. Before the end of the first year of the Democratic term $34,018,031 was withdrawn from the savings banks of [illegible] deposits, business failures increasing from an average of 1,089 a month in 1890 to 1,501 a month, and liabilities rising up 75 per cent. From May 4 to October 3, 1893, the people drew an excess of $378,000,000 from the national banks. At the end of six months of Cleveland's term the volume of business had decreased 35.96 per cent in the number of hands employed and of 54.09 per cent. in wages. The business of the New York clearing house advanced from $5,589,-348,832 in January, 1897, to $5,690,747,779 in January, 1899. These figures serve as an example of the many presented and all teaching the same lessons. When the Democratic party was in complete authority it muddled everything it touched, changed the laws to [illegible] and brought upon the country a period of universal loss and suffering. Little is heard now of "a tariff for revenue only." The one tested made a frightful deficit in the revenue. The threat to debase the currency has run against a solid Republican barrier. Prosperity has not been restored by accident, nor can it be expected to be a repetition of the verdict of 1896.

Those Wicked Parisians.

(Philadelphia Call.)

"While you are speaking of visiting the Paris exposition," said the broker to his friend, "let me warn you about the deception that the shrewd Parisian will try to practice upon you, and, indeed, all tourists.

"The Parisian is always on the lookout for demonetized and nonpassable coins, which exist in great abundance in Paris, and if he is unfortunate enough to get 'stuck' on them he saves them for strangers.

"The great numbers of unacceptable coins in circulation is due to the plan of the Latin union, which provides that the silver coins of France, Italy, Switzerland, Greece and Belgium shall be interchangeable among these countries. These include all German coins, all nickel or copper coins of the other union countries, certain issues of Italian [illegible] pieces, and now and then Italian fractional currency. Five lire pieces of Italy with the figure erect are not good, while like Swiss coins are payable. With the goddess seated Swiss coins cannot be used in Paris.

"Much confusion is caused by the real French coins, and in addition clever counterfeits of correct dates are daily [illegible]

"Vigilance in every business dealing and constant tests are the only way for the American to enjoy immunity from deception. I would advise you to buy a money card, on sale by Parisian newsdealers, and containing representations of the coins, and by a thorough study learn the 'Places a refuser' and 'Places a accepter.'"

Ex-Speaker Reed's Retort.

(New York Success.)

Growing tired of his chair, one afternoon, Speaker Reed surrendered it to another member and sat down beside a western Democrat.

"My, what a large hand you have!" remarked Mr. Reed, looking intently at the enormous paw of his Democratic friend, who was writing a letter.

"Yes, sir," said the member, "and I am proud of it. I worked on a farm for so many years that my hands grew large, as you see them."

The speaker held up his small and shapely right hand, smooth and white as a woman's and said:

"Well, thank the Lord I never worked on a farm."

The member replied: "You are probably going to run for the presidency sometime, Mr. Reed, and if you do I'll placard that statement all over the country—and what could you do about it?"

The big fellow mused awhile and said:

"Nothing—except to brand you as an infernal liar!"

The Sage of Hawville.

(Indianapolis Sun.)

Reminds Joe Bleeker, [illegible] Rankin, who left town about five years ago?" asked the sage of Hawville. The crowd all spit and then nodded assent. "Well," he continued, "I was up to Indianapolis yesterday an' run across 'em both. Bankin, you know, considered a wonder, an' he was, in a way, for he had to know that to be a fact, fer he had to make his mark when I was assessor one spring. Bleeker, though, was a brainy chap, allus good on learnin'. Well, as I was saying, Bleeker [illegible] in a good addication—nuthin'.

VAGRANT VERSE.

A Perfect Day.

I will be glad today, the sun
Shines all around the land;
The lilies lean along the way,
Serene on either hand.
The full blown roses, red and white,
In perfect beauty stand.

The mourning dove within the woods
Forgets, nor longer grieves;
A light wind lifts the blades of corn—
And ripples the ripe sheaves;
High overhead some happy bird
Sings softly in the leaves.

The butterflies flit by, and pass;
A perch falls to the ground;
The tinkle of a bell is heard
From some far pasture mound;
The cricket in the warm, green grass
Chirps with a softened sound.

The sky looks down upon the sea,
Blue, with not anywhere
The shadow of a passing cloud;
The sun has left its glare
So bright a picture on its breast
As if it smiled to wear.

A day too glad for laughter, nay,
Too glad for happy tears;
The fair earth seems in a dream
Of immemorial years;
Perhaps of that far morn when she
Sang with her sister spheres.

It may be that some patient soul
Has entered to God's rest;
It may be that some patient soul
Has gone where he suffers not.

And all the day is so peaceful
—Ina Coolbrith in Current Literature.

The Isle of Memory.

From out the ocean of gray
See a gold coast rise;
And there the silver flippers play
Where you and I together
In sweet and golden days
Floated on the stream of Time,
Among the [illegible]

The skies have never seemed so blue;
Loveliness has died;
There be a glory long to glow,
That was the world ere she!
In seasons of the gold time,
The magical and gold time,
When hearts were new and life was new—

The days that are gone away, my sweet,
The world has been so gray;
My life has never reached complete
As in that early day.
There is a measure scant, dear,
From the soul's hidden want, dear,
A yearning nothing else can fill
Since your love gone away.

I've sought to find in other eyes
A reflection of my pain,
In other scenes and other skies,
But I have sought in vain;
For whatsoe'er I do, love,
The sad, sweet memories arise
And call you back again.

The years have been so long, dear heart,
I thought I might forget,
But the night silences impart
To me the old regret.
Old dreams come o'er me thronging,
The past and dead past start
To life around me yet.

Something from present sorrows free,
Forgetful for awhile,
The past becomes reality
And all her beauties smile.
Across the mists of dreaming
The vanished time is gleaming,
Within the sea of Memory.
A sweet and shining isle.
(Denver News.

THOUGHTS.

(By Ivan Panin.)

The too serious are easily forgiven; not so the too witty.

The fool is a rogue incomplete; the rogue is a fool complete.

Poor perish from the lack of money; many, from the love of money.

True love is like a poplar; however old, it ever looks young.

Charity satisfies God if in the heart; to satisfy men it must be in the hand.

Man has therefore been given two ears that he might hear both sides, not one.

By doing wrong I become God's debtor; but by suffering wrong I become God's creditor.

A man should eat and drink below his means; he should dress according to his means; he should give beyond his means.

The world and all that it contains has been created in six days, and the law of God was given in forty to teach us the relative value of both.—(Christian Endeavor Herald.

Proper Disposition.

(Louisville Courier-Journal.)

A Missouri congressman has been caught using the franking privilege to send his old clothes home. The mistake such statesmen make is in not wearing them out before they send them home.

More Considerate Than We Are.

(New York Press.)

We owe England one debt of gratitude. No Briton has yet tried to be funny enough to introduce a Filipino sympathy resolution in the house of commons.

Scaly.

(Pittsburg Dispatch.)

In the improbable event of the annexation of New Foundland, would we be obliged to admit to full citizenship the only genuine codfish aristocracy?

Another Joke.

(Kansas City Times.)

Mark Twain, in writing his presidential platform, favoring everything and anything was determined to let no guilty issue escape.

FIRST NATIONAL BANK BLOCK

Mr. Hine Talks on Reduced Light Rates

Mr. Henry Hine, the general manager of the Colorado Springs Electric company, last evening made the following statements which will be found of interest to Colorado Springs people:

"The Colorado Springs Electric company took possession by purchase of the plant of the El Paso Electric company on the 20th of April, and has, therefore, been operating the plant only a little over a month. A very careful examination of the machinery and distributing system of the plant shows that there are many opportunities to introduce economies in the system and method of operating it, and these changes are being made as rapidly as possible. The Colorado Springs Electric company has purchased machinery in large units, of the most modern design and construction and the highest quality, which it will install in a power house on the coal fields north of the city. Work on the power house will be commenced very soon, and the new plant will be in full operation by the first of January next. It is the intention of the company to construct the very best plant possible.

"It has availed itself of the best engineering skill obtainable, backed by the widest experience. This will enable the Colorado Springs Electric company to produce and distribute electricity as cheaply as possible under the conditions here existing. The company proposes to share with its customers the benefits of this reduced cost of production, and the public may confidently look forward to a reduction in lighting rates, as soon as the completion of these improvements will warrant the company in making it.

"The Colorado Springs Electric company is spending a large amount of money, in order that this city may be equipped with the most modern plant and a thoroughly complete and well constructed system of distribution, and the public may depend on having a perfectly reliable and continuous 24-hour service of electricity for either light, light or power, at reasonable prices."

Marvelous Work of the Deaf and Blind

The annual entertainment given by the pupils of the State School for the education of the deaf and blind, last evening, attracted a crowd of interested friends, which far exceeded the capacity of the hall.

The first number upon the programme, a medley overture, was admirably rendered by an orchestra of nine of the older blind pupils, under the leadership of Director A. L. Rohrer, who is totally blind. In two of the numbers, eight students together of the hands suffered.

The smaller blind pupils, Willie Cox, Ruth Meyer, Ray Fisher and Charlton Harris, gave a very pretty little kindergarten bread and milk drill, and Ida Jones and Lizzie Finley sang "Hush, My Dear, Lie Still and Slumber," quite sweetly.

Willie Stephen Hosea and Baxter Mosley, two deaf pupils gave an illustration of reading by facial expression. Every eye in the audience was upon them, and their earnest efforts made it impossible to believe that the boys failed to hear the applause.

Miss Helen Adamson, whose parents reside at 214 East Dale street, in this city, rendered the piano solo, "Florence Waltz," by Liebling, with a dexterity in fingering and expression attained by few girls in possession of their eye sight.

Miss Anna Chethin of Grand Junction recited "Here and There" by Cary, in clear language, while her teacher, Miss Belle Bird, like voice of Miss Clara Brose, of Fort Collins, and was received with applause at method.

Misses Nannie Erwine, Helen Adamson, Luelle Dantz, Pauline Cheatley, Ira Jones, Myrtle Higby, Lizzie Finley, Martha Hardin, went through with a very graceful and drill, while Miss Elsha Cox of Denver presided at the piano and played an inspiring air.

Gumbert's tuneful duet, "Cheerfulness," rendered by Misses Pearl Hawes of Bob Cox, Idaho, and L. Pond of Denver was received enthusiastically as was the elocutionary recitation, Tennyson's "Charge of the Light Brigade," by Miss Frank Horton.

The final number, "The Magic of Spring," was sung by the senior choir with excellent expression.

The school has fifty-blind and fifteen deaf pupils and of that number five graduate this evening. Governor Thomas will be present and present the diplomas.

[illegible] Canon City, Mrs. Mary McDonald of Pueblo, Messrs. A. L. Lawton and W. Rice of this city, members of the board of trustees, the Judge Hawks of Greeley, an ex-member.

DEATH OF SENIOR MEMBER.

A lamentable incident which will cause sorrow throughout the state was the sudden death of Mr. James Davis of West Cliff, which occurred at Canon City [illegible] evening. While en route for this city, accompanied by his daughter, he was attacked with apoplexy and expired in a very short time. Mr. Davis was of quiet philanthropic nature as evidenced by the fact that he had served upon the board for twenty-five years and was its oldest member.

Druggists to Be at Casino Next Week

Another well pleased audience left the casino last evening after hearing the splendid orchestra. This afternoon the regular concert will be given at 4 o'clock and in the evening there will [illegible] Quite a number of new [illegible] have been made up for the dance this evening, and the largest crowd since the opening is anticipated.

A week from tonight the casino will have the pleasure of entertaining the members of the Colorado State Pharmaceutical association, the annual meeting will be held in Manitou, and the visitors to the number of about eighty will be taken to the casino as the guests of Meyer Bros., the wholesale druggists of St. Louis. Mr. C. T. Moran, their representative, made arrangements yesterday for a trolley ride, a concert and dance. Everything will be done in fine style from the invitations to the refreshments, and the visitors will have occasion to remember the casino as well as Meyer Bros.

Cemetery Aid Society Will Be Organized

A meeting is to be held on Friday afternoon at 2:30 o'clock at the home of Mrs. James W. Atkinson, 230 East Dale street, for the purpose of starting a movement in a direction which will undoubtedly find the approval of the entire public of Colorado Springs. The organization which it is expected will be formed at that meeting will be known as the Cemetery Aid society and its work will be such as is implied in the name.

To Improve the Grounds.

The ladies who have interested themselves in the matter of forming this society have been impressed with the condition of neglect which prevails in a large portion of Evergreen cemetery. Their idea is to care for the graves of the dead who have no one here to care for them and to beautify the cemetery in general in every way possible.

Similar organizations in cities of the east have become very strong and have been instrumental in bringing about vastly changed conditions and appearances in many eastern cemeteries which are today known widely and which before the work of the aid societies was started were in a state of worse neglect than is to be found at Evergreen.

Will Plant Flowers.

It is intended to make beds of flowers and to beautify with foliage those portions of the ground, which by reason of the topography will never be used as places for the burial of the dead.

The ladies feel, however, that in Colorado Springs more than in many places, is there a need for an organization that will care for the last resting place of the departed ones who have died in Colorado Springs without the presence of friends here who can look out for the care of their graves. An effort will be made to put the society on a firm basis at once and its work will be made effective at the earliest possible date.

To Plan Their Work.

The meeting to be held at the home of Mrs. Atkinson on Friday will be for the purpose of getting the ideas of the ladies who might be interested in the matter. Mrs. James Barnes and Mrs. John Fields are among those who have already taken a keen interest in the plan and who are helping to bring about a movement for effective work.

A membership fee in the organization, occasional public suppers, and various other plans will be expected to furnish the necessary funds for carrying on the work that is undertaken.

Buttonhole Interviews

Mr. J. H. Nykirk, president of the Grand Junction, Ute company, was a visitor in this city yesterday and will remain for a day or two.

"We are greatly pleased," he said, "with the write-up of the western slope in general and Grand Junction in particular that Mr. Rogers had in the Gazette on Sunday. The Gazette has long been popular with Grand Junction people, but it is particularly so under its new management and its enlarged and broadened form.

"We have been interested in the many accounts of the prosperity of Colorado Springs and I find upon visiting the city again that everything that has been said is justified and that the real situation cannot be told in words."

Among today's additions to the permanent population of Colorado Springs will be the family of Winfield Bixby, recently of Kansas City and one of the best known men in that city. Mr. Bixby arrived several days ago from Arizona, where he has been spending the winter for his health, intending to remain in Colorado Springs a few weeks, but the exhilarating atmosphere of the city soon convinced him that there could be no more desirable place to live.

"I have found no place to equal Colorado Springs as a health resort, a growing business center and a desirable place to make a home," he said yesterday before leaving to meet his family at La Junta. "I have decided to make my permanent home here and feel that it is the wisest move I have made since starting out a year ago in search of health. No city in the country combines business opportunities, perfect climate, good churches and schools, all of such a substantial character as does this, and I think it deserves the consideration of everyone [illegible] for health, not alone for business purposes. Indeed, with the natural and artificial advantages of Colorado Springs as they are, it seems really a sin that any one is allowed to go elsewhere for the sake of the climate, intending at the same time to pursue some business. The people are wide awake, hospitable and just the kind a young man should mingle with."

"Cripple Creek works will soon be entirely out of the effect of the recent wettings," remarked Senator B. Clark Wheeler, who spent a few hours in the city yesterday while en route to camp [illegible] "The dry mines that got [illegible] caught without pumps when the surface water [illegible] caused by the late storms, have, since into them, are getting well rid of the incumbrance and will work ahead without trouble. The mines I am working are dry ordinarily but get about 95 feet of water from the surface in the shafts in the spring and are just being cleared for working again. There are enough properties situated thus to make an increase in the output."

Rails will begin to come in rapidly this week and the ties are being strung now," said President Irving Howbert of the new railroad yesterday. "We started men to work this morning attending ties and will soon be laying track at this end of the line. The same kind of work has already been started at the Cripple Creek end, and we will have a real railroad on our grade before many days. The whole of the new line between Victor and Cripple Creek will be completed this month and in operation the first of July. In July the line from Cripple Creek to Cameron will be finished and a good portion of this end of the main line will be open to traffic."

Said County Commissioner Doran yesterday:

"I suppose it will be the end of the [illegible] before we get the damages repaired that the storms have caused in the country roads and bridges. There is hardly a bridge in the county that is not destroyed or damaged. The monthly bills have kept us busy all of the month up to the present. They are a good deal bigger than usual because of the condition of the roads and bridges and I suppose the damage will amount to not much less than $5,000."

PERSONAL MENTION.

T. H. Zendt of Denver is at the Elk.

H. T. Battey of Florence is at the Alamo.

M. C. Shandall of Denver is at the Alta Vista.

O. F. Schilling and wife of Goldfield are at the Spaulding.

S. C. Foster of Palmer Lake is spending a few days at the Spaulding.

E. H. Bostwick and H. J. Currey of Denver are registered at the Alamo.

Mrs. Garstin has left for Cripple Creek where she will spend the summer.

John W. Yerkes and C. E. Holland of Cripple Creek, are guests at the Alamo.

L. L. Henderson of Pueblo and S. F. Darby of Denver are late arrivals at the Alta Vista.

E. C. Leitkin and wife of Buffalo, N. Y., have taken rooms at the Alta Vista for an extended stay.

John Cassell, wife and daughter, Miss L. E. Cassell, of Columbus, O., have taken rooms at the Elk.

Mr. E. F. Giles, superintendent of the R. Porter Gold King, is in the city for a few days on business.

Messrs. Fred Hills and W. D. Wallman, mining engineers, are in Denver for a few days on business.

W. R. Versteeg and family of St. Louis Mo., are visiting Mr. and Mrs. Harry Versteeg at 319 East Dale street.

Mr. A. L. Weston, manager of the Manitou Park hotel for the coming season, was a visitor in the city yesterday.

Mr. Walter Ehrich, who has been spending the winter in California, taking post-graduate university work, is in the city.

Mr. Manton Eyr, who is connected with the Colorado Trading and Transfer company, in its Cripple Creek office, is in the city for a few days.

Miss Katherine Lawrence, daughter of Dr. C. W. Lawrence, has returned to the city from Bryn Mawr college, where she has been attending school.

Messrs. J. F. Luth and George Pepper, capitalists of New York, have arrived in the city for a visit of a few days. They are accompanied by Mrs. Luth and are guests of A. J. Noonan.

Mr. J. Harold Lovitt, of 126 North Cascade, received a telegram this morning calling him home to Yarmouth, Nova Scotia, to the bedside of a very sick wife.

Mr. and Mrs. W. F. Wilder arrived in the city yesterday and will spend some time here visiting with their sons, Walter L. and Frank C. Wilder. Mr. Wilder, Sr., was formerly a resident of Colorado Springs and is very well known here. He has recently been living at Belding, Mich.

Died.

POPEJOY TO GET NO COMMISSION

Jury Decides Against Him in Popejoy vs. Cone.

HE FOUND A PURCHASER

For Property Belonging to Mrs. Cone but That Lady Declined to Sell and Action for $1,000 Commissions Resulted. Other News of the Courts.

Leslie W. Popejoy will not get any $1,000 from Mrs. Rosaltie L. Cone.

At least such will be his luck if the verdict of the jury in the county court rendered last evening, stands as the termination of the suit.

Wanted a Commission.

Popejoy sued Mrs. Cone for $1,000. He alleged that at one time the defendant made an agreement with him whereby he was authorized to procure a purchaser for two mining lode claims in the Cripple Creek district that Mrs. Cone was to have $10,000 for the properties and the plaintiff was to have what he could get above that sum, as his commission. He alleges that he procured a purchaser at $11,000, but that Mrs. Cone, when informed of this facts had changed her mind about the matter and would not sell.

Denied the Contract

Mrs. Cone said that she never made any agreement with Popejoy whatever. She admitted conversations with him but denied that she had ever promised him any commissions or said anything whatever about being [illegible] agent for the consummation of a deal involving the claims specified.

The jury returned a verdict in favor of the defendant.

Judge Thomas A. Rusker of Aspen occupied the bench in the district court yesterday.

In the case of Lisle Harris vs. Manitou and Pike's Peak Railway company a motion by plaintiff to dismiss appeal from the county court was denied.

Attorneys Musser and Vanatta, representing the [illegible] in the suit of [illegible] Jones vs. Colorado Springs Rapid Transit Railway company, will file a stipulation in the district court today asking that the case be continued for the term. It was to have come up for trial today.

BRIEF CITY ITEMS.

A crowd of college girls are planning an outing at Crystal Park for the latter part of the week.

The Golden Terry Mining company filed articles of incorporation yesterday with the county clerk. The incorporators are: A. B. Williams, C. C. Hamlin and Bloom C. Joy. The company is capitalized for $1,250,000, divided into shares of a par value of $1 each. The directors for the first year are V. Z. Reed, C. C. Hamlin, O. H. Shoup, A. H. Williams and C. L. Tutt.

The report in circulation about the city a few days ago regarding the election of Jo Ady to reply to the class toast at the Alumni banquet on Friday evening was a mistake. Mrs. Ady was elected vice-president of the class but not for this purpose. The appointment of the [illegible] to answer the toast was delegated by the Alumni to Mr. Clark, who appointed Maurice Hall.

Important Notice.

The books for the transfer of stock in the Elkton, Raven and Tornado companies will open on June 5, 1900, and close again on June 7, 1900, at 4 o'clock p. m. for payment of Elkton dividend.

DO NOT LIKE THE BUZZ SAW

So They Got an Injunction Against New Engraving Co.

WILL GO TO MIDLAND BLOCK

Nichols and O'Brien Said the Buzz Saw Made Too Much Noise and that the Building was Too Weak to Hold the Machinery of the Picture-Makers.

The Pike's Peak Engraving company, which began doing business in the Nichols block a few weeks ago, is about to move. An order was issued in the district court yesterday which restrains the company from continuing its business in that location. The concern will move to the Midland block today and the delay to its business will be made as brief as possible.

Too Much Buzz Saw.

The complaint of Nichols and O'Brien, filed yesterday in the district court, alleges that the business of the Engraving company has materialized into more than represented to them when they rented their building. They believed that the machinery that would be put in for the purpose of making cuts of various kinds would not make any more noise than a couple of sewing machines but allege in their complaint that the company has a buzz saw with which the company saws up brass and zinc plates and that the noise is much louder than a sewing machine.

They further allege that by reason of the weight of the machinery the building inspector has ordered them to have it removed or increase the strength of their building.

Injunction is Issued.

The suit was filed in the district court yesterday also it prays in addition to damages in the sum of $250. That an injunction issue to restrain the defendants from continuing their business in the building of the plaintiffs.

The temporary restraining order was issued and the defendants will remove to the Midland block and continue their already heavy business with as little delay as possible.

Injunction Almost Too Late.

The Engraving company regards the suit of Nichols and O'Brien as an effort to injure the former's business inasmuch as the Engraving company had been intending to move its plant and had it all packed in boxes ready to take out of the building at the time the injunction was served. The Engraving company has for a week had a suit pending in the county court against the owners of the building, demanding specific performance of contract and damages, the owners having refused to allow the Engraving company to make such improvements to the sewer and water connections as would enable them to run all departments of their business.

Millinery Opening.

Mrs. C. M. Tasher will be at the Alta Vista hotel Friday and Saturday, June 8 and 9, with an entire new line of trimmed hats, the latest midsummer styles to select from, which will be sold at cost. Goods must be seen to be appreciated. Positively for two days only.

Conventions at Summer Resorts.

The National Retail Grocers association will meet at Atlantic City early in June; the Elks at the same place in July; the National Dental Association at Old Point Comfort in July. Persons interested in special fares for these events may obtain full information on the subject by calling at the [illegible] C. P. A., Pennsylvania lines, 248 South Clark st., Chicago.

$2.00 Denver and Return—$2.00.

Every Sunday, via "The Colorado Road." Seven trains each way.

Millinery Sale.

Large line of midsummer hats from $3 to $5 just opened up at Mrs. E. L. Thomas, 120 E. Pikes Peak ave. Also a choice line of French pattern hats at great reduction.

Excursion rates to the east over the Santa Fe route.

UNANIMOUS RATIFICATION

Stockholders All Pleased With the Big Elkton Deal and in Three Meetings Approved the Action of Their Directors.

The stockholders of the Elkton Raven and Tornado companies met in this city yesterday in three separate meetings and unanimously ratified the deal which had been proposed by the directors of the three companies named that the Raven and Tornado companies should turn over their assets to the Elkton for the consideration of \$575 000 and \$425 000 respectively and that in order to pay these amounts to the Raven and Tornado stockholders the Elkton should increase its capitalization to 3 000 000 shares

The Raven and Tornado companies are incorporated under the laws of West Virginia which would prevent the companies from forcing any other stock upon the holders and so the deal had to be a cash transaction The value of Elkton stock is \$1 and the stockholders in the Raven and Tornado companies can take their choice The Tornado stockholders can either take \$425 in cash for every 1 000 shares or 425 shares of Elkton stock Raven stockholders can take \$675 for every 1 000 shares of stock or 675 shares of Elkton stock As it is supposed that the new Elkton stock will sell for about \$1 00 it is not an open question which course the stockholders will take

At the Elkton meeting there were 5 560 shares of stock represented and the deal was consummated without a hitch No detail which had been planned by the directors had to be altered when it came to the stockholders attention and as a lawyer had been employed to draw up the minutes there was no legal aspect of the rather complicated situation that went unprovided for

At the Raven meeting there were 531 000 shares of stock represented and the proposition met no opposition of any kind the stockholders expressing themselves as highly satisfied with the arrangement which their directors had made

The Tornado stockholders were equally as acquiescent and came to register their approval in greater numbers than those of either of the other companies There were 1 114 700 shares of stock represented

The three meetings were practically useless as the directors had carefully seen to it before they agreed to the deal that there would be no difficulty in getting it ratified but they were expressive of great satisfaction which is interesting in that it gives the attitude of the stockholders at large in regard to the method of consolidating interests for the sake of economy which the Elkton has inaugurated

It is impossible to say at the present writing just what assets will be turned into the consolidation by the three companies so far as cash is concerned All three companies have shipments out which have not yet been settled for but so far as can be known now the Elkton will take in over \$10 000 not including the returns which will be made from the shipments of ore the Raven has about \$1 in cash and a large tonnage of ore unsettled for and the Tornado has at present writing \$4 000 in cash and shipments out It is not unlikely that after all the returns are in that the two companies will have \$275 000 in the treasury In addition to the cash there will be 100 shares of stock in the treasury which would easily bring \$1 20 a share, thus putting \$600 000 more cash in the treasury which could be used in buying additional territory

The Elkton will be one of the strongest companies in camp with its 20 acres of mineral ground on Raven hill and its large amount of cash and stock in the treasury It will be the policy of the company to go at once into active mining and development, connecting all of the three mines and exploiting them [illegible] a scheme of development which will be put into work at once

After the stockholders of the Elkton company had met yesterday the directors held a meeting but it was decided to postpone declaring the dividend until all the affidavits had been filed with the secretary of state and adjourned until Thursday June 7th at 4 p m at which time they will declare a dividend of 5 cents per share on the \$1 000 000 of capital stock issued amounting to \$50 000 The books will close June 7th at 5 p m after which the new certificates will be distributed as rapidly as possible

The workings will be under the management of Mr Sol Camp who has been the Elkton manager and it is understood that he has a very comprehensive plan of development which will be put into work at once

MINING NOTES AROUND TOWN

The activity of National stock attracted a good deal of attention yesterday and the price was 2 cents higher when the stock opened on the morning call than it was at the close Saturday The officers of the company in this district have the same [illegible] strike which the lessees have made on the Red Bird claim and about which they are circulating such generous reports The stock did not stay as high as opened yesterday and the lack of confidence of the officers may have had something to do with it However, it is believed here around the camp that this shaft from which they have struck good ore in the west drift to a good extent down through the third to the fourth level the stock is justified in advancing

THIRTY-DAY TRADING A BIG SUCCESS.

Time trading was inaugurated on the Colorado Springs Mining Stock exchange yesterday and proved to be a great success everything going smoothly from the opening to the close of business Considerably more shares changed hands than was expected for the first day The bulk of the trading was confined to an active [illegible] much larger than usual Inasmuch as both buyers and sellers were [illegible] which will be dealt in [illegible] and some of the pit stocks came in for a good share of it although it was pretty well scattered throughout the list The Evening Telegram expresses the members highly pleased that this privilege is granted it and predicts that it will give a stimulus to business

ACACIA WILL PAY QUARTERLY DIVIDENDS

The Acacia Gold Mining company has declared a dividend of 1 cent per share on the total capitalization of 1 000 000 shares making the amount of the dividend \$10 000 The directors say that they hope to pay such a dividend the coming year and that if the present rate of production is maintained they can do so The funds from which the dividend comes are the royalties which the company receive from the Wreck lessees on the Burns claim Lessees are also working on the Morning Star claim but making only occasional shipments and there is also a second set of lessees on the Burns but the main ore is from the Wreck It has been which at present is giving the company about \$7 000 a month in royalties Shipping is done in the Wreckoff workings to which the lessees have access and the shaft in three levels have struck ore the Raven has about \$1 are now working in the bottom of the bottom of 600 feet The dividend is made payable on June 25 to stockholders of record on June 1 on which day the books of the company close

MONTGOMERY AND VAILE LEAVE FOR WASHINGTON

Mr W S Montgomery president of the Colorado Springs and Manitou Land company left Denver Sunday for Washington accompanied by Judge Vaile The object of their visit to the national capital is to secure the Hull City placer of which the land department has jurisdiction The case was to have come up before the [illegible] but yesterday word was received that the hearing might be postponed until Mr Montgomery and Judge Vaile could reach Washington The case in the department of the Interior which Mr Montgomery and Judge Vaile will push while in the capital is one of the most important cases that has been tried in the land office in Colorado Springs for some time

Special to the Gazette

Canon City June 4 Everyone is expecting a boom in Canon this summer owing to the [illegible] circles at Dawson City a little west of the Klondike in Minnesota Creek camp at present though it is [illegible] camp in Minnesota being staked [illegible] the greatest excitement in the district is the Lone Pine Investment Company This company has [illegible] and [illegible] Lone Pine which is [illegible] Creek [illegible] Greenhorn range This property has [illegible] from \$10 up to \$100 per ton at least 200 tons of which [illegible] that will pay to

A TIME FOR BUYING

Nearly all of the really meritorious stocks are selling below their intrinsic worth and almost the entire market is a "buy." We do not anticipate any serious decline during the summer, and believe that the investor who will purchase now and hold on to his stock will come out with splendid profits. There are a number of stocks that offer specially good investments, and upon request we will gladly give our well-considered opinion as to what stocks offer the most attractive investments at the present time.

DIVIDEND PAYERS

There are several dividend-payers which we believe offer not only steady interest on the money invested, but also that offer the opportunity for splendid profits. Write us and we will give you the details concerning the dividend-payers that are most attractive.

PROSPECTIVE DIVIDEND PAYERS

There are several stocks which will, we believe, enter the dividend paying ranks before a great while. These stocks are now selling comparatively low, and we advise the immediate purchase of them both for an investment and for quick profits. We will give particulars upon request.

GARDNER & CO.'S MARKET LETTER

Colorado Springs, June 2.—The gold situation is looking well. It was put in the ground some time ago and the prospects could look no better for so early in the season. Neither chinch bugs nor the Hessian fly have done any damage so far. Both the foreign and domestic demand continues excellent and are expected to absorb the entire yield. The Cripple Creek district reports heavy storms early in May and the month's output was only $2,025,000, of which $1,060,000 was paid in dividends.

The stock market disappoints, but not discouragingly so. The high priced stocks begin to show signs of weakness and closed today a little lower all around.

June is the crucial test of the market. The east have been free sellers the last three months and the financial balance is largely in their favor. Just now the east is doing comparatively little but is looking on expecting lower prices. If any break is coming we look for it during June and believe that good eastern buying will show itself on any decline. But break or no break we look for eastern buyers to enter the market in July and begin picking up bargains preparatory to the expected after election boom.

The advance in the high priced stocks caused too many tempting opportunities for profit taking. Insiders, seeing this stopped buying in the hopes of getting stocks cheaper later on. Independence was the chief bear target and boomed on account or rumors that the Wilson Creek people hoped to reopen their case in Washington. We are asked if Gold Coin is not selling higher than any share ever has on the exchange. Gold Coin sells at the high-est price per share, but Portland sells at the highest price per property. We think there should be more money buying the better class of prospect stocks rather than the high priced list just now.

Speaking of high priced stocks we note some are advising the purchase of stock in the Home Leasing company of Leadville. There are only 50,000 shares and they sell around ten dollars a share. We advise caution as we are informed this company only holds five-year leases on property and nearly half of this time has expired.

The medium priced list remains steady although Ingham is lower on reports of the ore not running such high grade as formerly. Matoa is stronger on rumors that offers for the Gold Hill portion of this company's property have been made. The offer is said to be $400,000 or 40 cents a share and the company would then have other property left.

The exchange has taken a great step forward in at last adopting thirty day trading. You put up so much margin and can buy or sell stocks on thirty days' time. The price will generally be a fraction below regular prices in selling and a fraction above in buying. We were charter members of the exchange and at the time it began doing business six years ago, seventeen brokers assembled and some 8,500 shares changed hands on the first call. Today there are 125 brokers and in May 14,100,000 shares changed ownership.

We give all credit to the powers that be and were, for the protection that was given to the investor. First in the character of the stocks listed on the exchange and secondly in the manner of doing business. Every facility was offered him to buy, but he had to buy first, before he had any stocks for sale. The interests of the man who believed the market or some especial stock was going down was forgotten. The desire to sell stocks that the seller did not own, or in other words to sell "short" so that he could buy back on the anticipated decline was frowned upon.

He could sell "short," but deliveries had to be made and to make these deliveries the shares had to be borrowed from parties who for the past four years have reaped a lucrative harvest from loaning stocks at so much per day. These individuals to a man predict that numerous earthquakes of associated disagreeable sizes will now follow thirty day trading. Corners in stocks will be run and all sorts of disaster by flood and field occur. They point as an "awful example" that the only failure of consequence the exchange ever had was caused by trading in five day options.

Suppose stocks are manipulated? If a lot of people desire to trade thirty days and in so doing get caught in "corners," that's their business. The brokers and the customers of the brokers desire a market that has two ends. They desire to always have to wait and so please to always have "a way."

During the past six years of business the brokers on the Colorado Springs exchange have handled more stocks exchange have handled more stocks with less borrowing in proportion to business done than any other exchange in America, and so far as we know, in the world. In New York and Chicago customers put up ten per cent, and the brokers borrow the balance of the money from the banks. In Colorado Springs the great majority of customers pay cash in full.

We never did understand just how these things are done in Europe. In England we hear they have a "settling day" every two weeks. If customers have made money they get their cash on settling day, if they have lost they have to put up their wad and look pretty. Another odd English wrinkle is that no member of the London stock exchange is allowed to advertise. The financial editor of the Gazette "the Pride of two Hemispheres," said he knew it and that was the reason he left England. When we told this fact to the financial editor of the Mining Record, he immediately had a fit and from his remarkable conversation with himself we doubt if he approves of the English system.

In Paris they have some fifty brokers who solemnly occupy an outside tabernacle and swap lies and do the actual selling and buying of stocks all by their lonesome. Each actual broker has about ten understrappers camped on the outside who chase themselves after business and bring the orders in to their principals in the tabernacle. When the business day is over there is a general jubilation and a divvy all around of the commission between the broker and his henchmen.

If prices go against the customer the understrapper has an interview with Helen Blazes, while the broker calmly takes his drive in the park. It is a pleasure to know that some brokers, somewhere, lead a happy life. This manner of doing business closely resembles the way the law is carried on in the English courts. The party of the first part, the councillor, chases himself after business and when he gets it he writes the "brief" (or as it should be called "length") which is a full account of the case, and then hands his "brief" over to a barrister, the party of the second part, who pleads the case in the court. Not all the red tape of this world is tied around boxes of candy.

Opportunity, we are told, knocks on every man's door at least once and now loud knocking is heard on the door of the local mining exchange. Possibly the big bunches of mining stocks that were held in a few hands six years ago when the exchange was started are now scattered far and wide and the necessity of having a one end or always first buy market, before you can sell, is over locally. The commission brokers who are anxious to have a double ended market, with a selling side as well as a buying side, have at last had their way and we shall see what we shall see.

You don't have to sell or buy on thirty days if you don't want to. There is no law that we ever heard of in this Bird of Freedom land that obliges anyone to speculate or buy or sell stocks in any manner. You can though if you want to, and the mining exchange intends to see to it that each and every one shall have a fair opportunity to invest in mining shares on either the buy side or the sell side, as seems best. We are brokers. We want to enlarge our business. That's what we are here for and we wish to offer our customers every facility for doing business to their best advantage. We would like to see everyone of them make great big profits all the time.

Write us for lists of stocks to buy and lists of stocks to sell. If possible kindly mention the prices of shares that you desire to handle and about the amount or cash that you desire to invest.

Men's Oxfords, black and tan, at McCurdy Shoe Store.

Half fare to Denver and return, via "The Colorado Road," June 6 and 7. City ticket office No. 25 North Tejon street.

USE ALLEN'S FOOT-EASE IN YOUR GLOVES

A lady writes: "I shake Allen's Foot-Ease into my gloves and rub a little on my hands. It saves my gloves by absorbing perspiration. It is a most dainty toilet powder." We invite the attention of physicians and nurses to the absolute purity of Allen's Foot-Ease. Dr. W. C. Abbott, editor of the Chicago Clinic, says: "It is a grand preparation; I am using it constantly in my practice." All drug and shoe stores sell it, 25c. Sample sent FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

The Gazette is the Only Newspaper in the State with Its Own Private Wire to the Colorado Springs Mining Stock Exchange.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, June 4.—The week opened on the Colorado Springs Mining Stock exchange with the market still very light, but prices, in the majority of cases, holding up well. The trading in the unlisted stocks is much improved and business is still good among the shipping mines, with prices generally strong. In the prospects list, the trading is still very light. It was said the other days, however, that a general activity and strength for the market has been preceded by strength among the higher priced stocks. This has been true of other times and seems as if it must be true of the present. Nearly every one is agreed that the prospects stocks are going to be much higher before long.

The features are not decidedly conspicuous. The trading was heavy in Independence T. and M., which opened at 63¼ on the afternoon call, but declined again to the morning's prices, closing at 61¾. Ingham was also a very heavy trader and advanced to 22¾ after having remitented quite a little weakness last Saturday. It is probable that the decline to the lower prices invited investment, as the activity on the property continues, and the showing of ore is as good as it ever was. The strength of Matoa is noticeable, the stock having advanced further to 24½ and and Moon-Anchor was quite strong at 66. Portland, however, sold as low as 3.17½ under light trading. National was a heavy trader, and the price fluctuated between 10¾ and 10¾, with a good deal of future trading. One lot was sold at 30 days for 11¾.

The trading for the day amounted to 692,560 shares exchanged, the total cash value being $155,559.

CONTAGIOUS BLOOD POISON

Contagious Blood Poison is the most degrading and destructive of all diseases, as it vitiates and corrupts the entire system. The first sore or ulcer is followed by little red pimples on the body, mouth and throat become sore, the glands enlarge, and in time, copper color blotches appear, and hair and eyebrows fall out. These are some of the milder symptoms; they increase in severity, finally attacking the vital organs; the body is tortured with rheumatic pains and covered with offensive eating sores.

It is a peculiar poison, and so highly contagious that an innocent person handling the same articles used by one infected with this loathsome disease, may be inoculated with the virus. It can be transmitted from parent to child, appearing as the same disease or in a modified form like Eczema or Scrofula.

Many an old sore or stubborn skin trouble appearing in middle life, is due and traceable to blood poison contracted in early life. You may have taken potash and mercury faithfully for two or three years and thought you were cured, but you were not, for these poisonous minerals never cure this disease; they drive it from the outside, but it is doing its work on the inside, and will show up again sooner or later. You may not recognize it as the same old taint, but it is. S. S. S. has cured thousands of cases of Contagious Blood Poison, and it will cure you. It is the only purely vegetable blood purifier known, and the only antidote for this poison. S. S. S. cleanses the blood thoroughly of every particle of the poison, and there is never any return of the disease.

Mrs. T. W. Lee, Montgomery, Ala., writes: "Several years ago I was associated with a doctor who inoculated my baby, and for six long years I suffered untold misery. My body was covered with sores and ulcers. Several physicians treated it, but all to no purpose. The mercury and potash they gave me seemed to add fuel to the awful flame which was devouring me. Friends advised me to try S. S. S., and I began using it and improved from the start, and a complete and perfect cure was the result."

CURE YOURSELF AT HOME.

Send for our Home Treatment book, which gives a history of the disease in all stages, and is the result of many years of close study of blood poison and actual experience in treating it. You can cure yourself perfectly and permanently at home, and your secret is your own. Should you need any information or medical advice at any time, write to our physicians. They have made a life study of blood diseases, and will give your letter prompt and careful attention. Consult them as often as you please; we make no charge whatever for this service. All correspondence is conducted in the strictest confidence.

The Sparkle of Life

Is generated by Nervous Energy

You can't have good health and weak nerves at the same time. Your general health is good or bad, according to the condition of your nerves. No theory in this; it is simply founded upon the old law of cause and effect.

Nerve force gives buoyancy, vim and power to both body and brain.

Be convinced of the above facts by trying a box of Palmo Tablets. The greatest nerve remedy of the age. They cure debility.
